I note that I can withdraw my permission, in writing, at any time.

Section 2. Data Protection

I agree to the CCF recording and processing information about my son/daughter/ward on MOD systems. I understand that this information will be used only for the purposes of administrating his membership of the CCF and my consent is conditional upon the CCF complying with its duties and obligations under the Data Protection Act. Section 5. Flying

As a Cadet, your son/daughter/ward may have the opportunity to fly as a passenger in a military-operated aircraft, ranging from commercial passenger types to helicopters to front line operational aircraft ('fast jet'). On such sorties they may be invited to handle the flying controls, under supervision. They will have been thoroughly briefed and appropriately equipped (e.g. with a flying suit, helmet and parachute for some aircraft) before they go flying. In due course your son/daughter may apply and be selected to undertake formal flying instruction and be trained to fly solo. Medical fitness of cadets is important for the safety of the aircraft and the crew and it could be unsafe for some to fly in certain aircraft types. All pilots and instructors are required to meet stringent training and medical standards and are appropriately supervised. You should be aware that in some cases the gliding instructor could be an appropriately qualified cadet. Whilst the MOD does all it can to reduce the risk associated with flying to 'as low as reasonably practicable', and your son/daughter will be carefully supervised, there is a residual risk to any flying activity. Whilst accidents are rare, they can happen and may have fatal results.
